

### ...Additional Notes...

All of the participants will get a seminar kit, a certificate, VIBE\_iBT software (mono-lingual), snacks and lunch.

### ...Limited capacity...

This time, we only have capacity for 100 participants..

#### General Information

With increasing developments in technology, Computer—Assisted Language Learning (CALL) is also progressing at a fast rate. There are many kinds of supporting software titles available to download anytime, anywhere, for free. There are many types of equipment supporting language teaching. Even more, there is a lot of research done in different locations (both in Indonesia and abroad) seeking to find out how technology is best employed in language teaching.

To participate in advancing technology use in the classroom, we are holding a workshop with the theme “Calling CALLers”.

#### CALLers Involved

Several CALLers are going to share their practical experience as the featured speakers:

1. Dr. Hananto (UPH)
2. Matthew Myers, M.A. (UPH)
3. Agus Santoso, M.A. (UPH)
4. Nany Kurnia, Ph.D. (Unika Atma Jaya)
5. Allan Lauder, M.A. (Universitas Indonesia)
6. Neny Isharyanti, M.A. (UKSW)

Let us together set the future of CALL in Indonesia. Our motto is:

**“It’s now or never!”**

## TEFL Workshop IV:

### “Calling CALLers”

6 December 2008; 09:00–16:00; B 325

The English Department  
Faculty of Liberal Arts

#### An Invitation for Workshop Presentations

In this workshop, we invite researchers, teachers / lecturers and learners in CALL to contribute their ideas for the advancement of CALL in Indonesia

#### Languages for Presentations:

Indonesian or English

#### Abstract Requirements:

- Topics are related to technology in language teaching in Indonesian, English, or other foreign languages.
- Topics must be practical and applicable in the classroom.
- Length: 300 words. For this workshop, the complete version of the paper is not necessary.
